

**1x CORSAIR CS550M 550W Modular - 80+ Gold - ATX (CP-9020076-EU)**

**Gold-certified efficiency and modular cabling for low energy use and easy installation**  
 CS Series Modular power supplies are ideal for basic desktop systems where low energy use, low noise, and simple installation are essential. 80 PLUS Gold efficiency reduces operating cost and excess heat. Flat, sleeved black modular cables with clearly-marked connectors make installation fast and straightforward, with good-looking results.

**80 PLUS Gold-certified efficiency**  
 The super-efficient operation of the CS Series Modular results in lower energy use and lower operating costs. Since it generates less heat, the fan doesn't need to work as hard, and you'll enjoy near silent operation.

**Modular cabling with clearly marked connectors**  
 The flat, sleeved black cables are modular, so you'll only use the cables you need and you'll get great-looking results. The clearly-marked connectors make installation fast and straightforward.

**Supports 4th Generation Intel Core processors**  
 The low-power sleep state of the latest Intel processors can cause performance and compatibility issues with some power supplies. CS Series Modular power supplies fully support the new modes, making them an excellent choice for new PCs.

**Corsair Engineering and Quality Control**  
 Every Corsair power supply is designed by our California engineering team and built to our exact specifications. The same care that goes into the design and testing of our renowned high-power enthusiast power supplies also goes into the CS Series Modular, because you need confidence and reliability regardless of your build budget.
